

Minecraft Java Version Installation

The following steps show you how to change your installed version of Minecraft Java Edition from the latest release to version 1.20.1. This is required to join the Craft-my-Shore Server:

- 1: Open Minecraft Launcher on your PC.
- 2: Ensure you have selected Minecraft Java Edition from the list on the left.
- 3: Select the Installations tab at the top of the page (shown below).

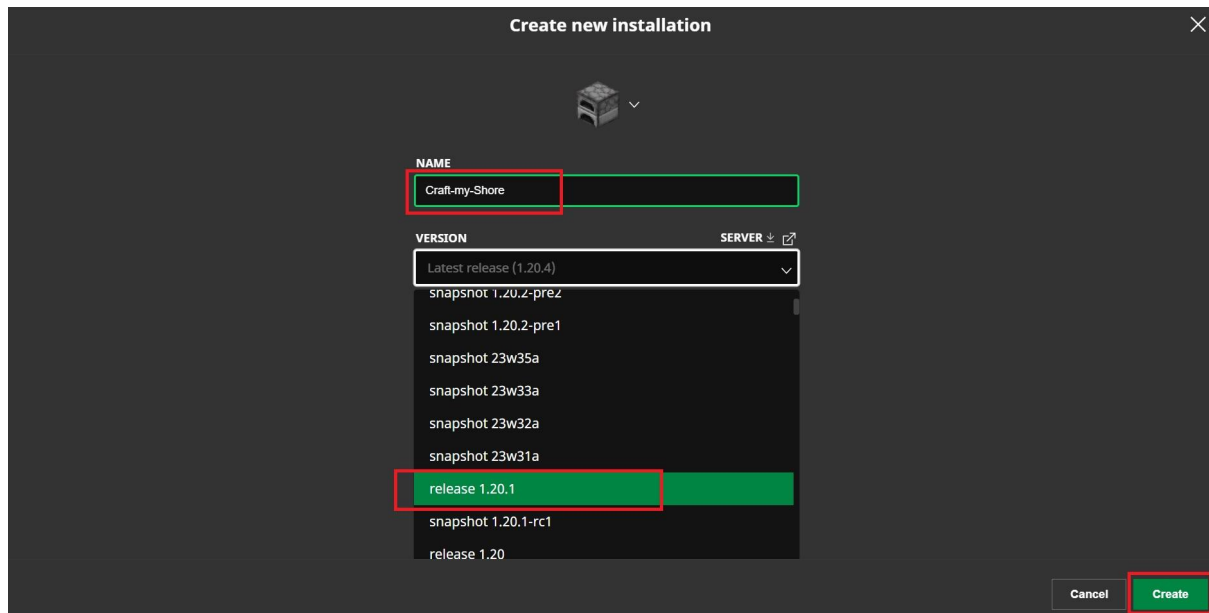

- 4: From here select 'New installation' (shown below).

- 5: Next type the name of your new installation in the 'Name' field. Here we'll use 'Craft-my-Shore' as the name.

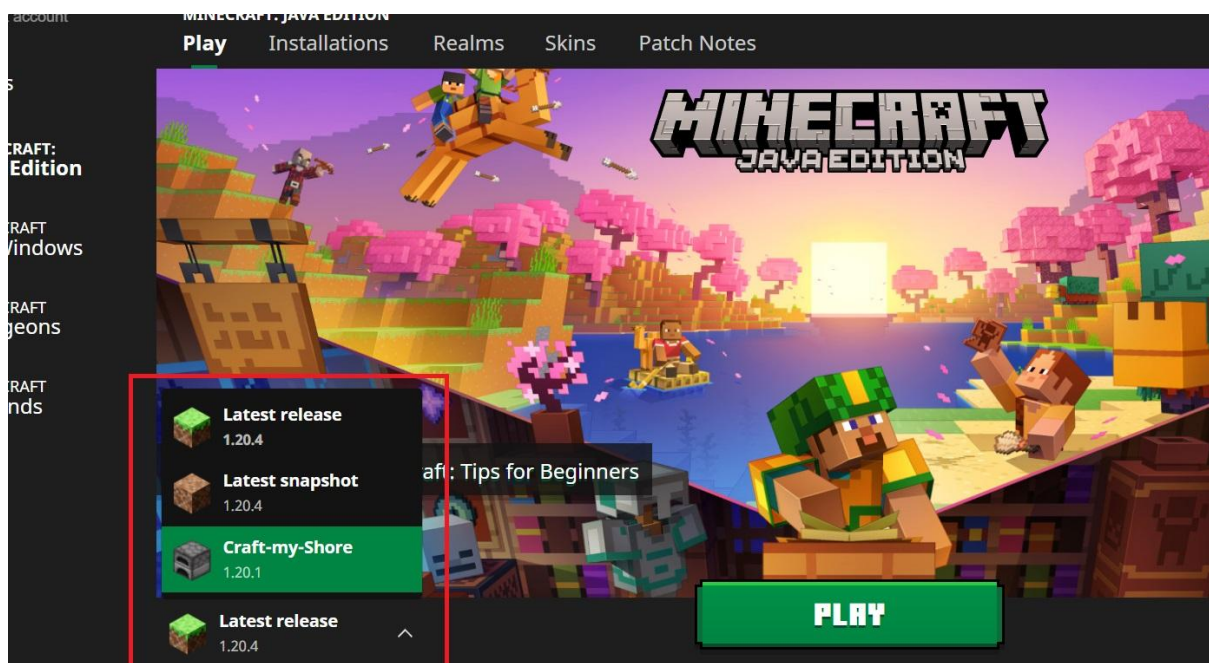

6: Open the drop down menu for version and navigate to release 1.20.1 and select.

7: Now select 'Create' in the bottom right.

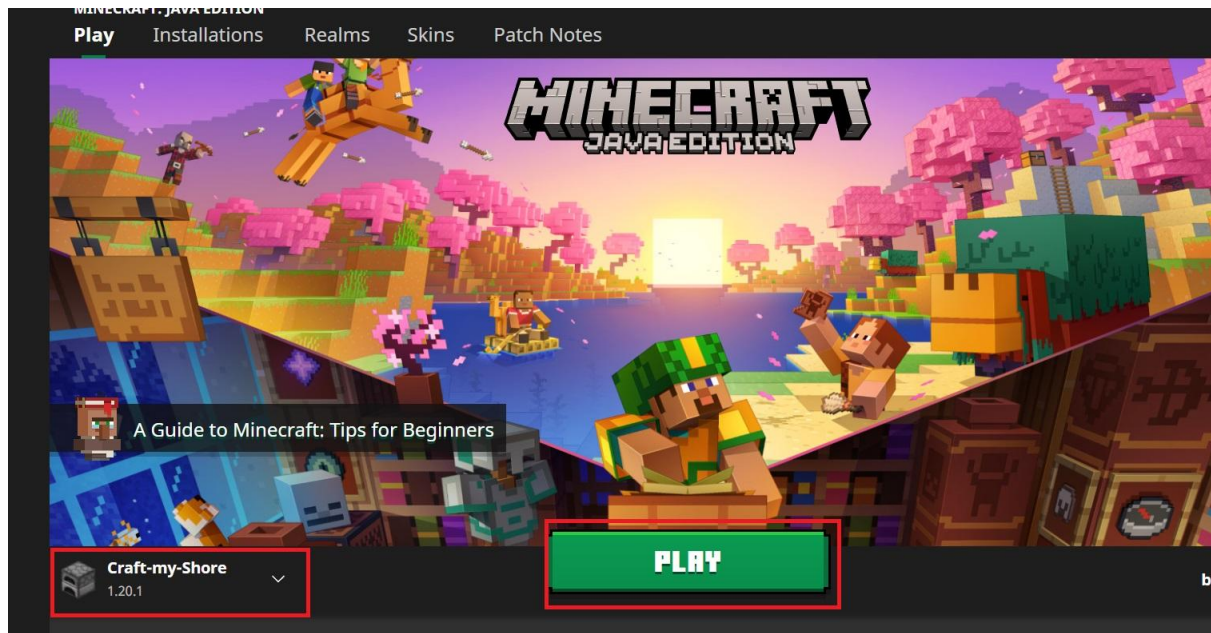

8: Once created, select the play tab at the top of the page to return to the main launch page for Minecraft Java Edition.

9: Below the Image and to the left of the green play button you'll see the latest release with a downward arrow next to it. Click this and select 'Craft-my-Shore' from the pop up menu (see below).

10: Now press the green 'Play' button. Make sure you've selected the 'Craft-my-Shore' release before hitting play (step 9).

The new version you created will now install and the game will launch. This may take a few minutes to complete the installation.

Minecraft Java Edition Server Setup

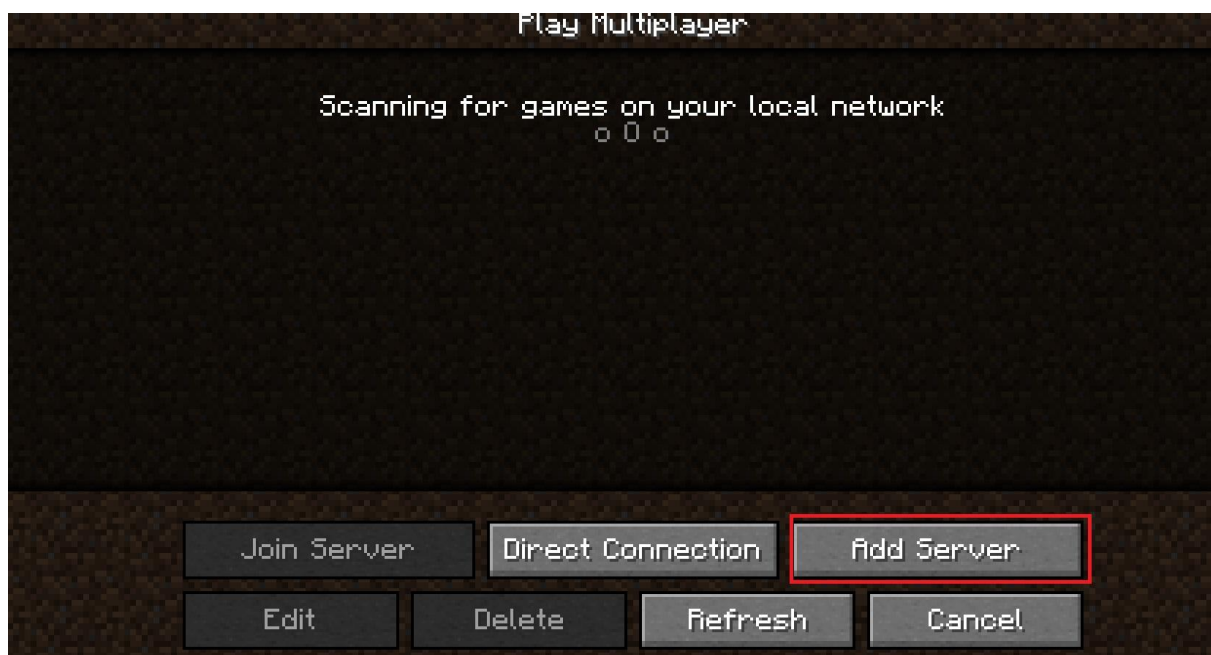

Once you've created the new installation (previous steps) you're ready to setup the server.

1: Firstly, launch your new installation of Minecraft Java Edition (above).

2: Once on the title page, select 'Multiplayer'.

3: Now select 'Add Server'.

4: Enter the server details in both fields.
Server Name = Craft-my-Shore
Server Address = dublin.craftmystreet.com

5: Press 'Done'.

6: Now select the 'Craft-my-Shore' so that it is highlighted, and then select 'Join Server'

You will now connect to the server.

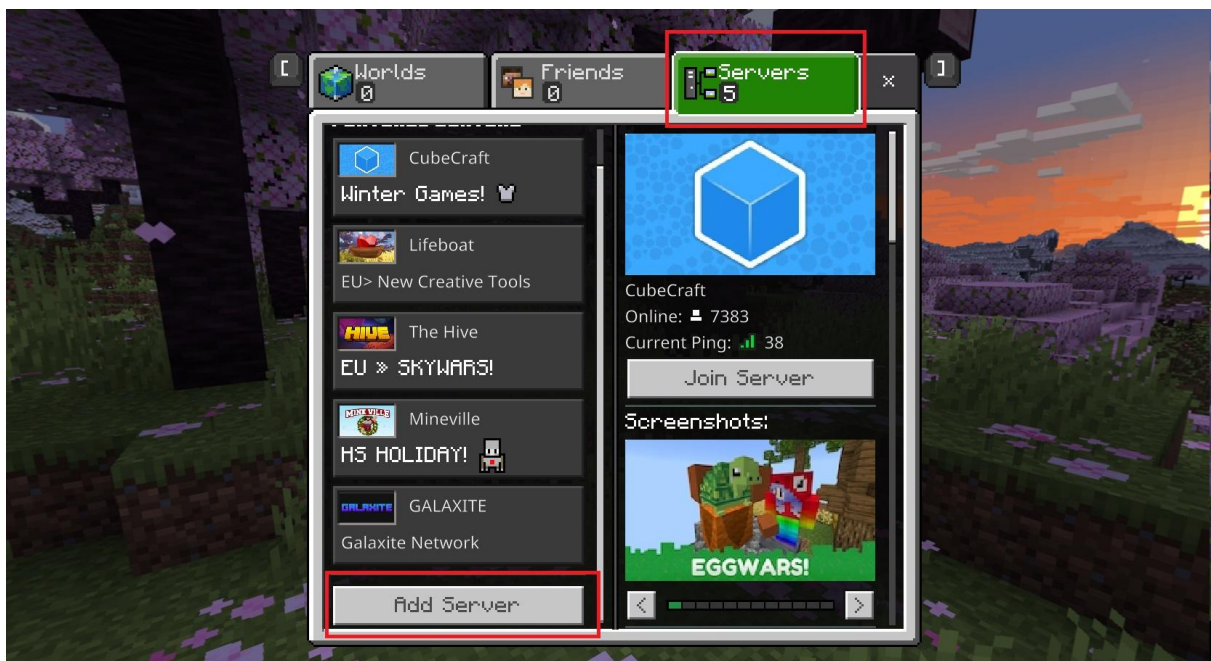

Minecraft Bedrock/Mobile Server Setup

1: Launch

2: Once on the title page select 'Play'

3: Now select the 'Servers' tab at the top and scroll down to 'Add Server' and select.

4: Enter the server details in the top two fields. The port remains the same.

Server Name = Craft-my-Shore

Server Address = dublin.craftmystreet.com

5: Press 'Save'.

6: Scroll down the list of servers to 'Additional Servers', select 'Craft-my-Shore', and then select 'Join Server'.
